

GLASS SEALER

SOLVENT BASED – FLAMMABLE LIQUID

Forms an invisible protective barrier on all types of glass surfaces including shower doors, mirrors, windows, ceramic and porcelain.

Directions: Clean the glass surface thoroughly with Stone Soap RTU applied with a micro fiber cloth or terry towel. If the surface has calcium build up remove it with Eco Calcium Remover and then rinse thoroughly. Spray Glass Sealer on to the surface to be treated in small areas and rub vigorously in both vertical and horizontal directions for 1 to 2 minutes then move to the next small area. Allow to cure for 12 hours. Do not use alternative cleaners such as Windex® as they may damage the Glass Sealer.

1. FIRST AID:

Eyes – Flush with cool water for at least 15 minutes. Call a physician.

Skin - Wash thoroughly with soap and water. Call a physician.

Ingestion – Call a physician. Never give anything by mouth to an unconscious person.

Inhalation – If inhaled, remove to fresh air. If not breathing, give artificial respiration, preferably mouth to mouth. Call a physician.

2. SPILL CONTROL: Eliminate all ignition sources and keep public away. Ventilate confined spaces and keep public away. Recover free product with absorbent materials and dispose of in accordance with local State and Federal Regulations. Keep product out of sewers and water courses.

DANGER: Keep out of reach of children and animals.
