S T O N E E N H A N C E R #1

TECHNICAL DATA SHEET

STONE ENHANCER #1 is a blend of silicone oils in mineral spirits that produces an enhancing effect (“wet look”) on all types of interior and exterior stone surfaces including marble, granite, slate, limestone, travertine, sandstone, agglomerates and all naturally occurring stone surfaces. This product gives a low gloss finish.

The coverage rate of **STONE ENHANCER #1** will vary depending on the porosity of the stone to be treated but it is normally in the range of 500 to 1,000 sq ft per gallon per application.

APPLICATION PROCEDURE

It is recommended that **STONE ENHANCER #1** is brushed, rolled, sponged or wiped onto the stone surface to be treated. The surface should be **COMPLETELY DRY** and clean prior to application. After application buff the product on the surface and allow to dry for 1 to 2 hours. Apply a second coat if more enhancement is required.

This product can only be applied to stone surfaces that have been previously sealed and the sealer is fully cured otherwise the enhancing effect will dissipate rapidly.

PRODUCT FEATURES

- Provides an enhanced wet look to all types of stone surfaces
- Repels Water and Oil Based Stains
- Water Resistant Finish
- Non Yellowing
- Provides Abrasion Resistance
- Excellent Heat Resistance
- Chemical Inertness

CLEAN UP PROCEDURE

Clean equipment with mineral spirits including the sprayer head between applications.

SHELF LIFE

In the original container the product will have a shelf life of at least 6 months.

Always protect this product from freezing.

If the product appears to be separated or has formed a gel contact Stone Technologies, Corp. before use.

TYPICAL PROPERTIES

Appearance	:	Clear Liquid
Ionic Nature	:	NA
Odor	:	Mineral Spirits
Specific Gravity	:	0.80g/ml
pH	:	NA
Incompatibility	:	Do not mix this product with any other chemicals.

PACKAGING

This product is available in the following containers;

- 1 quart plastic bottle
- 1 gallon plastic bottle
- 5 gallon plastic pail
- 55 gallon plastic drum

SHIPPING

This product is non-hazardous under DOT shipping regulations.

We ship the smaller containers by Fedex Ground and the drums by a common carrier that we select unless otherwise requested by the customer.

SAFETY

Before handling this product always read the Material Safety Data Sheet and container labels for physical and health hazard information.

The information contained in this technical data sheet is, to the best of our knowledge, true and accurate. No warranty, expressed or implied, is made or intended. The use should be based upon the customer's own investigations and appraisal.
