

DISTRIBUTORS *WANTED*

Stone Technologies Corp., Manufacturer of High Quality Concrete Sealers and Cleaners is Seeking International Distributors For These and Other Fine Products:

Concrete Sealers X-1 & X-2 are permanent silicate based deep penetrating sealers which chemically bond to the concrete to densify and protect against chemicals, create a vapor barrier and extend the life of the concrete.

Concrete Sealer X-3 is a water based special blend of polysiloxanes/silanes which crosslink below the surface of the concrete making the concrete surface water and stain repellent allowing spills to be removed more easily.

Concrete Sealer X-3S is a solvent based non-flammable and virtually odorless version of Concrete Sealer X-3.

Concrete Sealer X-4 (High gloss finish) is a special UV resistant acrylic copolymer blend which protects the surface of the concrete making it repellent to water, freezing temperatures, sun, pollution and staining. **Concrete Sealer X-4S** is a solvent based version of Concrete Sealer X-4.

Concrete Sealer X-5 (Satin finish) is a special UV resistant acrylic copolymer blend which protects the surface of the concrete making it repellent to water, freezing temperatures, sun, pollution and staining. **Concrete Sealer X-5S** is a solvent based version of Concrete Sealer X-5.

Concrete Cleaner #1 is a highly concentrated cleaner which can be used to clean and degrease concrete, masonry, bricks, concrete block, stone, mortar and stucco.

Eco Concrete Etcher is a water-based non-hazardous, non-corrosive, biodegradable, odorless, VOC free, non-flammable concrete etching and cleaning solution.
