Michael Parry

Re: Stone Technologies – CS

Dear Mr. Parry:

I am the owner of Watermark Pros, our company specializes in the removal of calcium deposits from pool tile and outdoor surface reconditioning and preservation. I am writing today to express my total satisfaction with your products, in particular Stone Sealer #2. I discovered your products in the course of an exhaustive online search for the highest quality stone sealers available. My criteria is quite stringent as I use only environmentally safe products for my customers and this is no easy task when searching for effective long lasting stone, masonry and concrete sealers!

Due to the unsurpassed warranty, stellar personal one on one customer service, ease of use and peace of mind your products afford us, it is with unwavering confidence that I use only Stone Technologies products on my job sites. I have used many sealers in my business and NONE compare to the quality of your products.

Congratulations on “doing it right”. Stone Technologies products are simply the best of the best!

Many thanks from our team to yours!

Chris Papes
Owner/General Manager
Watermark Pros
